

Aspiring board

After a special year with a lot of changes, there are 5 new enthusiastic students who will take over from us. These guys are inspired by this year and are speaking highly on the progress of our study association. That is exactly why they want to take over from us.

We present with pride the seventh aspiring board of Study Association Technisch Appèl!

Peter, Jos, Joshua, Daan and Sven will be committing themselves fully to our association next year. Good luck lads!

There will be more news soon, so keep an eye on our socials!

Video of the company visit to Intrax

The excursion committee has visited Intrax Suspension Technology in Oss, located in Brabant, and have recorded their visit. In this video you can see how a company visit usually goes.

Intrax is a Dutch manufacturer of high end suppression and suppression technology with over 40 years of intensive experience in the highest echelons of various car sport disciplines. Intrax designs and produces shock absorbers, suspensions and chassis technology for Formula 1 cars, street cars, chimneys, cranes, internal transporting systems, nautical ends, and everything in between.

Tapp European Championship

03-07-2021

This past Saturday we have given our best and a bit more during the Tapp EC. We have footballled with in a 'panna' cage, taken football shots on a gigantic dart board, pulled ourselves forward with a bungee rope pulling us back, played some 'sjoeling', and beat each other of a platform. It was old-fashioned fun and we want to thank the activity committee again for the great organisation! We also want to thank Erik Westerhof for making his house and especially his garden available to us to make this event a true spectacle!

Keep an eye on our social! We are actively working on an after movie behind the scenes.

Tapp journal

Have you seen it already? Our third Tapp journal is online, and what a delightful video it is! We have had some incredibly fun activities and there are numerous after movies of them, made by our one and only Peter, the media content creator. You can view all the after movies on his YouTube channel.

You can view the third Tapp Journal by selecting the image.
